

LIGHTNING PROTECTION MAST (roof top/A-Frame mount) 8 FT. to (high mast) 115 FT.

SHAFT SPECIFICATIONS

The shaft is fabricated from steel and is tapered, octagonal (up to 50 ft.) or dodecagonal (115 ft.) in cross section. All shafts have a full length longitudinal submerged-arc weld ground smooth providing a uniform taper.

ANCHOR BASE

The anchor base is fabricated from structural steel conforming to G40.21-44W and is circumferentially welded inside and outside to the pole shaft.

HAND HOLE

All shafts are supplied with a 5"x12" hand hole ring opening and a weather proof cover. A ground lug is affixed inside the shaft accessible from the hand hole opening.

FINISH

The standard finish is 2C polyurethane or H.D.G..

NOTE

Consult the wind map for wind loading in your area.
