

STEP ORNAMENTAL POLE 27 FT. SPECIFICATIONS

SHAFT

The shaft is fabricated from steel and is octagonal in cross section. All shafts have a full length longitudinal submerged-arc weld ground smooth providing a uniform taper. Standard termination is a 2-3/8" x 3" tenon.

ANCHOR BASE

The anchor base is fabricated from structural steel conforming to G40.21-44W and is circumferentially welded inside and outside to the pole shaft.

HAND HOLE

All shafts are supplied with a 6" x 9" hand access opening and covered by an ornamental plate. A ground lug is bolted inside the shaft accessible from the hand access opening.

FINISH

The standard finish is 2C polyurethane over H.D.G..

NOTE

Consult the wind map for wind loading in your area.
